*“Softlogic Australia provides highly integrated enterprise wide solutions. Each product in Softlogic Australia’s solution offerings stands alone as a leader in the respective industry space.”*

# WHO WE ARE

Softlogic Australia has been providing comprehensive and highly integrated healthcare software solutions for the past 11 years. Our unique value proposition "Best in the Business" is that it develops, markets, sells, implements and supports its own world class software solutions in line with industry requirements.

Softlogic Holdings PLC, our parent company owns the largest private hospital chain in Sri Lanka. This diversified conglomerate employs over 6,500 employees.

# WHAT WE DO

Our own R&D & feedback from domain experts culminated in producing state of the art software solutions for Food Services Management, Nutrition Care Planning, Allied Health Care Management, Job Scheduling, and Auditing which are among the best in the health care practice.

**ChefMax**

ChefMax is a complete Food Services Suite. Specifically designed for Healthcare and Aged care industries.

**Allied One**

AlliedOne is a comprehensive Software Suite for Allied Health Management. It provides facilities for health care professionals to record patient interventions & process statistics for funding.

**Audit Manager**

Developed partnering with 'Technical Cleaning Solutions', an industry expert, Audit Manager is a web based system that allows auditing staff to schedule & conduct audits seamlessly carrying a portable device.

**invisible systems**  
powered by softlogic

Softlogic Australia is the exclusive partner for Australia & New Zealand to market & implement this 'Wireless Energy Monitoring' system. A highly sought after product by many sectors in Australia.
