Management Solution**

# ChefMax Features

## Patient Management

Link existing Patient Administration Systems (PAS) to ChefMax using Health Level-7 (HL7) real-time messaging standard.

## Menu Management

Create menus for varying dietary conditions (diet codes) of patients. These menus carry recipe and nutrition information as well.

## Dietary Information

Ascertain suitability of meals for different dietary conditions of patients. Dieticians and Speech Pathologists check recipes and nutritional contents of meals before assigning to diet codes.

## Meal ordering capabilities

### Room Service

Offer 'hotel-style' meal services. Patients can order meals from the Room Service Menu when they want and meals will be delivered within the agreed time.

### PES (Patient Entertainment System)

Allow patients to order meals using a bed side interactive entertainment unit.

### BYOD (Bring Your Own Device)

Allow patients to use their own smart devices like mobiles and tablets to order meals.

### Assisted Ordering

Staff uses tablets to order meals at patient's bed side. Staff can also use scannable menus to take meal orders.

## Production

Ability to order bulk meal orders from external sites and consolidate all meal orders to generate 'Pick list' of ingredients and print distribution reports and delivery labels.

## Inventory

Allows food services staff to raise purchase orders, receive goods and manage ingredient stock movements as per meal consumption requirements.

## Survey

Allows users to create and conduct surveys. Patient satisfaction survey is a common example.

## Food Audit

Enable the client to be HACCP (Hazard Analysis and Critical Control Points) compliant. This food safety tool allows users to measure temperature of food and ingredients at different control points and take corrective actions.

## Who We Are

Softlogic Australia Pty Ltd is a software development company. We have implemented our systems (ChefMax, Invisible Systems, AlliedOne and Audit Manager) in over 120 sites across the Health, Aged Care and Food Services sectors. Many of our customers utilise multiple product solutions from us, indicative of our value to them as a business partner.

## What We Do

We pride ourselves on our commitment to research and development, culminating in products that are State-of-the-Art in the Food Services Management, Allied Health care, Auditing and Monitoring sectors.

We boast a highly skilled development team that can provide customised modules built to our clients requirements.

## Our Services

Customers rely on Softlogic not only to deliver the best products, but also for the company's significant experience and value-added implementation services including Data Conversion, Project Management, Account Management and Training.

## Our Parent Company

Softlogic Holdings PLC, listed company in the Colombo stock exchange and rated as one of Sri Lanka's most dynamic and reputed conglomerates has its business expanded to ICT, Healthcare, Retail, Financial Services, Automobiles and Leisure. It has established representations and strategic alliances with reputed global institutions and large multinational corporations in the recent past.
